## Pre-Doctoral Fellowships

### University of California at Davis

The Center for Vectorborne Diseases at UC Davis is offering four NIH funded pre-doctoral fellowships in the biology of human and animal disease vectors. Eligible candidates must have established a mentoring relationship with a T32 Faculty Trainer as the Major Advisor. Fields of research (and Faculty Trainers) include the following aspects of vector biology: molecular genetics, genomics and biochemistry (Cornel, Hammock, Lanzaro, Luckhart); host-pathogen interactions (Barthold, Baumgarth, Borjesson, Luckhart, Reisen, Tsolis); behavior and ecology (Foley, Reisen, Scott); population genetics, epidemiology and control (Cornel, DeRiemer, Gardner, Lanzaro, Reisen, Scott). One of the four fellowships will support a DVM seeking to complete his/her PhD. Support includes tuition and fees, stipend, travel for meetings and a modest allotment for research expenses.

To apply submit the following:

- Curriculum vitae
- Complete application, (download at: <http://cvec.ucdavis.edu/graduate/funding/training>)
- Transcript of all courses
- Two letters of recommendation

Submit a complete set of application materials (preferably by e-mail) to each of the following contacts:

Gregory C. Lanzaro, Ph.D.  
Dept. of Pathology, Microbiology & Immunology  
School of Veterinary Medicine  
1321 Haring Hall, One Shields Avenue  
University of California, Davis  
Davis, CA 95616  
[gclanzaro@ucdavis.edu](mailto:gclanzaro@ucdavis.edu)

Shirley Luckhart, PhD  
Dept. of Medical Microbiology & Immunology  
School of Medicine  
3437 Tupper Hall, One Shields Avenue  
University of California, Davis  
Davis, CA 95616  
[sluckhart@ucdavis.edu](mailto:sluckhart@ucdavis.edu)

UCD is an affirmative action, equal opportunity employer.

Applications will be accepted until all positions are filled.
