

Graduate Assistantships Available  
Department of Entomology  
University of Arizona

The Department of Entomology at the University of Arizona is recruiting outstanding students for M.S. and Ph.D. programs. Located in Tucson, a lively city in the beautiful Sonoran Desert, this is one of the best places in the world to study insects. Entomology at UA was recently rated #2 nationally in The Chronicle of Higher Education (<http://chronicle.com/stats/productivity/page.php?primary=9&bycat=Go&secondary=69>).

The University of Arizona is home to the Center for Insect Science, a multicampus, interdisciplinary program fostering collaborative research and education on a broad array of topics dealing with insects.

Support for graduate study in Entomology is available from UA Graduate School and College of Agriculture and Life Sciences Fellowships, BIO5 (UA Biological Sciences) Fellowships, IGERT Fellowships in Genomics, research assistantships, and teaching assistantships.

Our more than 25 faculty (including regular, joint, and adjunct faculty) seek students with interests in basic and applied entomology, including behavior, biological control, chemical ecology, ecology, entomopathogenic nematodes, evolution, genetics, genomics, integrated pest management, medical entomology, physiology, plant-insect interactions, management of resistance to transgenic crops and insecticides, social insects, symbiosis, systematics, and urban entomology.

For details see our website: <http://cals.arizona.edu/ento/>

Contact Dr. Martha Hunter, Graduate Chair, [mhunter@ag.arizona.edu](mailto:mhunter@ag.arizona.edu) for information about the program.

Contact Ms. Patricia Baldewicz, Graduate Coordinator, [pbaldewi@ag.arizona.edu](mailto:pbaldewi@ag.arizona.edu), for application materials and administrative information.
